

CHAMP

You have moved mountains... you can move the Hill.

For well over a year, ACA has spearheaded an aggressive lobbying and grassroots campaign targeting the critical issues of national health care reform and expanding the role of DCs in the federal Medicare program. In support of these efforts, ACA has invested hundreds of thousands of dollars in grassroots communications, database management, staff time, public and media relations, advertising, and targeted lobbying activities for the benefit of the entire chiropractic profession. These activities--including the important CHIROVOICE.ORG patient advocacy network and the association's cooperative efforts with other chiropractic organizations through the Chiropractic Summit process--have substantially advanced our issues on Capitol Hill. Seeking to fully capitalize on the progress achieved to date, ACA is further expanding its presence and influence in Washington via the launching of this important new program: **CHAMP**, the **Chiropractic Health Advocacy and Mobilization Project**. **CHAMP** is a coordinated, national campaign aimed at developing additional financial resources to be used exclusively to advance the chiropractic profession's influence on Capitol Hill and within the White House.
